

OMEGA CLAMPS

Installing the Omega Clamps is a very easy procedure. Follow the instructions below to properly and easily install the Omega Clamps.

1. First and most important, attach the clamp to your Omega clamp.

2. Locate the large holes at each corner on the bottom of the fixture. Line up the trigger pins with the holes and rotate the pins until you feel them slide easily into the holes.

3. To lock the pins into place apply pressure and rotate turn the pins clockwise to lock them into place. You will know when they have locked into place. Test the Omega clamp by gently pulling it away from the unit. If it feels loose, or if there is any play in the Omega clamp, release the clamp and try installing it again.

Customer Support: American DJ® provides a toll free customer support line, to provide set up help and to answer any question should you encounter problems during your set up or initial operation. You may also visit us on the web at www.americandj.com for any comments or suggestions. Service Hours are Monday through Friday 9:00 a.m. to 5:00 p.m. Pacific Standard Time.
